

IN THE DRAWINGS:

The Examiner objected to the drawings as filed under 37 CFR 1.83(a). Please replace the previous drawings with the new set of drawings, labeled "Replacement Drawings" and submitted in this response. The "means for connection" in claim 49 is provided in the replacement drawings FIG. 1(C) and FIG. 2, illustrating the connection CM, and is fully supported in the specification. No new matter is added.
